|  | <b>Client</b>          | MBSA Engineering on behalf the Department of Transport               |
|  | <b>TITLE</b>           | The Upgrade of the DR08035 Road from Clarkebury to Mjanyana Hospital |
|  | <b>DATE</b>            | 11 July 2019   |
|  | <b>VENUE</b>           | KuNtlalukana Community Hall  |
|  | <b>TIME OF MEETING</b> | 10h00  |

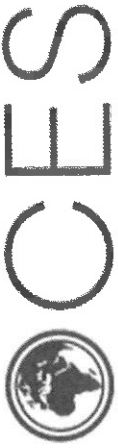

| MEETING AGENDA   |   |
|--|---|
| <b>OPENING PRAYER</b>  |   |
| Opening prayer by community member   |   |
| <b>WELCOME AND INTRODUCTION</b>  |   |
| Welcome and introduction by Chief Mtirara  |   |
| <b>CREDENTIALS AND APOLOGIES</b>   |   |
| All present stakeholders introduced themselves and their organisations.  |   |
| <b>ATTENDEES</b>   |   |
| See attendance register  |   |
| <b>PRESENTATION BY CES</b>   |   |
| Thina Mgweba (TMg) of CES presented on the purpose of the meeting explaining the EIA process as well as the Public participation Process. CES encouraged the community to voice their views and comments regarding the environmental aspects of the road upgrade and stated that a draft report will be released for public comment once complete and that the community will receive email and sms's when the time comes. |   |
| <b>QUESTIONS/COMMENTS</b>  | <b>RESPONSES</b>  |
| Chief Zwelodumo (Chief) requested that Livestock be accommodated for below the bridges that the livestock can be able to cross below the bridges, especially near Mbangu.  | Moeketsi Mosebi (MM) of MBSA Engineering responded that cattle grids have been incorporated in the designs of the road.   |
| Nomvana, a community member asked that now that CES is checking for the environmental aspects, should there be graves or houses in the way, would those be removed, or would the road be built over the graves.  | MM responded the engineers have tried by all means to avoid all houses and graves that these would not be affected in this process. Should the need arise to remove any graves, there are processes that will need to happen with the affected parties in this regard.  |
| TT Mankomo community member spoke in terms of water. Whether the contractor would bring their own water, or would they use water in the dams?  | MM responded that this will be finalised at the contractor stage. He stated that he would not like to speak for the contractor at that stage, but this question will definitely be addressed at a later stage. In the tender documents and briefing the issue with water will be flagged and the contractor will be made aware that they must consult with the community. |
| Fezile Mntabeko, a community member stated that they accept the development, knowing that it will also help with temporary jobs.   | This was noted with thanks.   |
| Mam'Mtirara also stated that they welcome the development. Furthermore, there is a section of the road from the Clarkebury Bridge to a village called Mhlophekazi where there is a forest. They don't mind those trees being removed, as lots of criminals hide in those trees. Removing those trees, would help us.   | TMg responded that this would be looked in to, however, unfortunately removal of forest that is not part of the project may not be possible at all, from an environmental point of view, because certain permits and authorisations are needed for this depending on what type of forest it is.   |

|  |   |
|--|---|
| <p>Mabhuti Fihla, requested please could the community be involved when consultants come to the area. The last time a gentleman doing the Heritage Assessment came on his own with no community members with him, and he should have had assistance from the community because at times some graves aren't visible to someone who doesn't know the area, only the community members would be able to point these out. The gentleman did state that he would be back however.</p> | <p>TMg noted this and apologised. She stated that the the Heritage Specialist appointed by CES was on site, he was instructed to contact the chief, but this somehow was not done. He did return to site however and had a meeting with some community members and the councillor where they also inspected various grave sites of concern.</p>   |
| <p>The Chief also raised a point on what happens when there are cultivated lands which might be affected.</p> <p>He further spoke on tremors that may occur at houses near the quarry where there will be blasting and that the contractors must assess any cracks and that this must be address in the report.</p> <p>Lastly, he asked what the plan is with the road in the meantime. As it is currently very bad currently.</p>   | <p>TMg responded that the issue of the blasting will be raised as an impact in the mining EIA report and mitigations for this will also be raised.</p> <p>The issues of cultivated lands which might be affected will also be flagged in the road EIA report.</p> <p>The ADM and DoE responded that they will continue to grade the road in the meantime, until the tar road is complete. They have a contractor that is employed to maintain and grade all the Engcobo roads in the meantime</p> |
| <p>A community member inquired whether there would be new quarries that will be used or would old quarries be utilised? Who will own these new quarries?</p>   | <p>TMg responded that there are 3 proposed borrow pits and one hard rock quarry. These will be owned by the Department of Transport, as the Environmental Authorisation (EA) from the Department of Mineral Resources (DMR) will be under the departments name.</p>   |
| <p>Another community member raised a question on what would happen with electricity poles and water pipelines along the road.</p>  | <p>TMg responded that all sensitive areas would be flagged in the EIA report. All relevant stakeholders who may have services along the road will also be informed during the EIA process.</p>  |
| <p>Mam'Mtirara pleaded that all the all stakeholders involved to please keep the community in the loop. If there are any delays, these should be communicated as they had received many empty about this road and many other developments before.</p>  | <p>This was noted by all relevant stakeholders.</p>   |
| <p><b>Meeting Closure</b></p>  |   |
| <p>The chief and the councillor, closed the meeting.</p>   |   |

**Proposed Upgrade of Road DR08034 Phase 3 and Associated Mining Activities**  
**ATTENDANCE REGISTER**

**Subject:** SMS notifications P370

Hi Louise,

Can you please send out the following sms notification to the below list for P370 MBSA Clarkebury:

“Dear Stakeholder, you are hereby notified of CESs intent to submit an application for environmental and mining authorisation on behalf of the EC Dept. of Transport to upgrade a 20 km section of the DR08034 road from Clarkebury to the Mjanyana Hospital in the Eastern Cape. This will include the upgrading of bridges and culverts along the road as well as sourcing of hard rock material from three proposed borrow pits and a quarry. For further information, please contact Caryn Clarke at 043 726 7809, or [c.clarke@cesnet.co.za](mailto:c.clarke@cesnet.co.za).”

Hi Louise,

Thank you. Yes, is a new one. Please also add Chief Dabulamazi: 0839779331 to the list as well.

Regards  
Caryn

Hi

Sure will do, so this seems to be a very new one... not done before... give me time to just load the numbers etc.

Thanks

Kind regards

**Subject:** SMS notifications P370

Hi Louise,

Can you please send out the following sms notification to the below list for P370 MBSA Clarkebury:

“Dear Stakeholder, you are hereby notified of CESs intent to submit an application for environmental and mining authorisation on behalf of the EC Dept. of Transport to upgrade a 20 km section of the DR08034 road from Clarkebury to the Mjanyana Hospital in the Eastern Cape. This will include the upgrading of bridges and culverts along the road as well as sourcing of hard rock material from three proposed borrow pits and a quarry. For further information, please contact Caryn Clarke at 043 726 7809, or [c.clarke@cesnet.co.za](mailto:c.clarke@cesnet.co.za).”
