PROFILE

Amanda has more than 20 years' experience in providing legal and legislative support and advisory services based on South African environmental legislation. She holds a LLB degree from the University of South Africa and is regarded as a self-motivated worker who pays meticulous attention to detail. She has been responsible for the drafting of the 2006 and 2014 Environmental Impact Assessment Regulations and amendments thereto as well as amendments to the National Environmental Management Act, 1998 (NEMA). Amanda has been intimately involved in the preparation for the implementation of the One Environmental System with the Department of Mineral Resources and Energy and has legally vetted strategic environmental assessments such as the Renewable Energy Development SEA, resulting in the identification of renewable energy developments zones (REDZs). Amanda has also legally vetted the exclusion norms issued in terms of NEMA for electricity grid infrastructure, solar PV and battery storages facilities and has interacted with authorities on matters of interpretation and implementation relating to integrated environmental management.
