PROFILE

Sinazo is a Senior Environmental Consultant with extensive experience in Basic Assessments (BA), full Scoping and Environmental Impact Assessments (S&EIA), Environmental Amendment Applications, Water Use Licence Applications, Climate Change Assessments, and Public Participation processes. Her career background includes renewable energy development, where she actively identified new wind and solar opportunities and managed project permitting. Her professional interest includes the general environmental impacts assessment process, renewable energy and integrating climate change into environmental management.

She holds an MSc in Environmental and Geographical Science from the University of Cape Town, where her research focused on the impact of climate services among commercial and smallholder farmers, funded by the National Research Foundation (NRF). She also earned a BSc Honours in Environmental and Water Science from the University of the Western Cape, with majors in environmental assessment and management, and sustainability studies. She is registered as a Professional Natural Scientist (*Pri.Sci.Nat.*) with SACNASP (Reg. No: 139719) and is a member of the International Association for Impact Assessments South Africa (IAIAsa).
